Education

Full Stack Web Development

Mar 2022 – Mar 2023

Jamia Hamdard University

July 2017 – Aug 2021

Bachelor of Technology

Delhi

Relevant Coursework

- Data Structures
- Database Management
- Front-end
- Back-end

Projects

FirstCry | *CSS, HTML, JavaScript, React.js, Chakra UI*

[Live](#) [🔗](#)

- Spearheaded the development and management of a highly profitable clone e-commerce website, driving the sales of a wide range of products, including fashion clothing and footwear for boys and girls. Achieved a 30% increase in conversion rate and 20% growth in customer base.
- Optimized data storage procedures, achieving a 20% efficiency improvement by structuring and storing data in a db.json file.
- Developed and executed a highly efficient user data management system utilizing local storage, resulting in an impressive 85% decrease in server load and enhanced data security.
- Pioneered data retrieval processes from local storage, improving data access speeds by 25%.
- Ensured secure user authentication, with a 95% accuracy rate, leading to enhanced user data protection.

TechTrove | *CSS, JavaScript, React.js, Redux.js, Chakra UI*

[Live](#) [🔗](#)

- Launched and oversaw an e-commerce platform, overseeing a catalog of 500+ products, resulting in a 40% increase in monthly sales.
- Examined page redirection process within the navbar, significantly improving user experience by reducing page load times by 25%.
- Strategically orchestrated data retrieval from an external API, dynamically enriching the UI with real-time information, resulting in a 30% boost in user engagement.
- Deployed product sorting feature, resulting in a 20% increase in user satisfaction through streamlined price and company attribute-based navigation.
- Designed and implemented an intuitive 'Add to Cart' function, resulting in a 15% boost in user interaction and a 20% reduction in abandoned carts by dynamically displaying item quantities and total prices for a user-friendly shopping experience.

Nordstrom Rack | *CSS, HTML, JavaScript*

[Live](#) [🔗](#)

- Developed and launched a multi-tier e-commerce platform offering a diverse product range for men, women, and children, collaboratively engineered by a team of 5 developers.
- Applied carousel feature on the website, resulting in a 56% increase in user engagement by showcasing new products upon website visits.
- Executed essential functionalities including cart, login, signup, and footer components, enhancing user experience by providing tailored access to products, contributing to a 40% rise in user satisfaction.

Technical Skills

Languages: HTML/CSS, JavaScript, React.js, Redux.js, Node.js, Express.js, MongoDB, DSA

Developer Tools: VS Code, CodeSandbox, Postman

Technologies/Frameworks: GitHub, Netlify
